PREFACE

The purpose of the Washington State Data Book is to present, in one reference document, a diversity of information on Washington, its people, economy, and government. The information is obtained from state and federal agencies as well as private business.

The Data Book contains eleven major chapters: Population, Economy, State Government Finance, Human Services, Criminal Justice, Education, Natural Resources, Environment, Energy, Transportation, and Local Government and Special Districts. These sections represent the type of information most frequently requested by a broad range of users.

It would be impossible to compile and publish the Data Book without the cooperation of the contributing agencies. Therefore, we thank those agencies and their research staff, professional and clerical. Agency names, addresses, general information telephone numbers, and reference publications are listed in the Contributing Agencies section.

Every effort is made to ensure the accuracy of the data presented in the Data Book. Because the Data Book is only published every two years, much of the material is subject to frequent updates and changes and these data should not be cited as the most recent official agency information.

WASHINGTON STATE HISTORICAL FACTS AND SYMBOLS

DATA NOTES

Many data series published in the Data Book are available in separate publications released by the contributing agencies. These source documents generally provide updated data on a more frequent and detailed basis than the Data Book. The source documents also provide data definitions and user information not included in the Data Book due to lack of space.

Please contact the contributing agency for additional data, explanations, or updated information. The contributing agencies, their addresses, telephone numbers, and some available publications are listed starting on page 289.

A County Sources and Footnotes page for the county profiles is located on page 266.

Unless otherwise noted, the time periods in this publication are either calendar year or fiscal year. The following types of fiscal year are used in the tables:

State Fiscal Year - July 1 through the following June 30;
Federal Fiscal Year - October 1 through the following September 30
School Fiscal Year - September 1 through the following August 31.

Financial data are in current dollars unless otherwise noted.

[1] Fiscal year ends on August 31 except prior to 1978 when the fiscal year ended on June 30.

[2] Beginning on January 1, 1975, regular property tax is collected by the state and is shown as a state fund. Local property tax shown for this and subsequent years is special levy revenue only.

[3] Effective September 1, 1981, school districts no longer received County Real Estate Transaction Tax. The responsibility for collecting those revenues was transferred to the Washington State Department of Revenue. The funds continue to be used to support K-12 education.

[4] Fiscal Year 1979 was beginning of the basic education funding formula and property tax levy limits.

[5] Fiscal Year 1991 budget including extensions.

[1] Educational Service Districts are regional agencies designed to assist in the development of cooperative programs for local school districts, act as consultants and advisors, and assist the Superintendent of Public Instruction and the State Board of Education.

[2] State fiscal year for 1990; school fiscal year for 1991.

[3] Revenue definitions and expenditure program definitions were modified in 1990. This has resulted in revenues and expenditures by category that are not comparable with previous years' expenditures.

[4] In 1991, the fiscal year was changed from July 1 through June 30 to September through August 31. This column represents budget estimates.

[5] Fund balance from previous year.

[1] The calendar year indicates the year in which levies are collected. Voter approval of levies is required in one of the two prior calendar years.

[2] Levy election results are those reported to SPI by county auditors.

[3] Enrollments shown for 1975-85 are October full-time equivalent (FTE) students for the prior calendar year. Enrollments shown for 1986-91 are annual average FTE students for the most recent school year ending prior to the calendar year.

Note: Special levies, also known as excess levies, are collected the calendar year after election. In 1976, Constitutional Amendment #64 was passed that allows levy collection to cover two years instead of one. This change took effect for levies passed in 1977 and collections for 1978 and 1979.

[1] Boat trailer registrations, identified as such, ended in September 1979. They are now registered as "personal" trailers and cannot be identified as recreational vehicles.
[2] Prior to late 1975, motor homes were registered as passenger cars.
[3] Registrations for 1977 are exaggerated by the requirement to register some vehicles twice to institute the revolving biennial registration system.

[1] All prices are for furnaces operating at 100 percent efficiency. Valid comparisons of fuel prices by type of fuel should take furnace efficiency into account.

[2] Puget Power serves Jefferson, King, Kitsap, Kittitas, Pierce, Skagit, Thurston, and Whatcom Counties.

[3] Washington Water Power serves Adams, Lincoln, Spokane, Stevens, and Whitman Counties and parts of Idaho.

[4] Pacific Power & Light serves Columbia, Garfield, Walla Walla, and Yakima Counties.

[5] Seattle City Light serves the city of Seattle and some surrounding areas.

[6] Tacoma Public Utilities serves Pierce County.

Note: Power companies do not necessarily serve entire county areas.

[1] In 1986 & 1987, electric utility prices were 24.92 and 19.70 which include fixed minimum charges (demand charges, take-on pay, and other billings). If commodity charges for 1986 & 1987 reflect the change in the average US price for the same years, they would be 3.35 and 3.19, respectively.

[1] This table includes population data for all incorporated cities and towns in existence on April 1, 1990.

[2] Date of incorporation indicates date of first incorporation. Several cities and towns have been reincorporated after disincorporation. A few special instances of this kind are covered by footnote. Great care has been taken to authenticate the date of original incorporation with the most reliable sources. It will be noted that there are certain discrepancies between the present compilation and those prepared by the Office of the Secretary of State and by the Association of Washington Cities. For the counties, the formation date in many cases is the date when they were created by the Oregon Territorial legislature. Clark County was originally created as Vancouver District in 1845. However, the first board of county government was first organized in 1850 after the 1849 Oregon Territorial legislature changed the name to Clark from Vancouver. The formation date for Spokane County is the date when it regained separate county status after having been merged with Stevens County.

[3] The census data have varied to a certain extent from one census to another. The date for the 1890 and 1990 censuses was June 1; for 1910, April 15; for 1920, January 1; and for 1930 through 1990, April 1.

[4] Auburn originally incorporated as Slaughter; name changed in 1893.

[5] Bainbridge Island originally incorporated as Winslow. In 1991, Winslow annexed the rest of the island. Name was changed officially as of January 1, 1992.

[6] Population indicated for Bellingham in 1890 represents the sum of the populations for Fairhaven (4,076) and Whatcom (4,059). The figure for 1900 was derived in the same manner. The name of Whatcom was subsequently changed to New Whatcom. Fairhaven and New Whatcom were consolidated in 1903 to form Bellingham.

[7] Carnation originally incorporated as Tolt; name changed in 1951.

[8] No population figure published for Colton in 1890. In a few instances, the precise date of incorporation of a municipality may be ambiguous. For example, the certificate of election to incorporate Colton was filed in 1890 although a certified copy of order of incorporation was not issued until 1893.

[9] Du Pont originally incorporated in 1912, disincorporated in 1926, and reincorporated in 1951.

[10] Issaquah originally incorporated as Gilman; name changed in 1899.

[11] Kalama disincorporated and reincorporated in 1890.

[12] Houghton and Kirkland consolidated as of August 1, 1968 under the name of Kirkland. The population of Houghton in 1950 and 1960 is included with the figures shown for Kirkland on these dates.

POPULATION BY CITY AND COUNTY: 1890 TO 1990[1]

1930	1940	1950	1960	1970	1980	1990
384	378	470	479	628	1,294	1,337
728	803	911	1,059	1,138	1,599	1,911

[13] Kittitas was not incorporated until 1931, but the Census Bureau listed population figures for Kittitas in 1920 and 1930. These figures have not been included in the present table. Although LaCrosse was incorporated in 1917, the Census Bureau did not determine separately the population of LaCrosse in 1920. Selah was incorporated in 1919, but no population figure was indicated in the census reports for 1920.

[14] La Conner disincorporated in 1886 and reincorporated in 1890.

[15] The population figures in the published Federal Bureau of the Census reports for Medical Lake include improperly the residents of Eastern State Hospital (established in 1891) and Lakeland Village (established as a separate institution in 1915), before these institutions were actually annexed to the municipality of Medial Lake in 1947. An attempt was made by the Bureau to correct the population figures for 1910 through 1940, but apparently these adjustments did not entirely eliminate the errors in the original figures, Accordingly, the figures for 1910 through 1940 must be considered unreliable.

[16] Mercer Island Town annexed to Mercer Island City on June 1, 1970.

[17] Palouse originally incorporated as Palouse City; name changed in 1894.

[18] Port Orchard originally incorporated as Sidney; name changed in 1903.

[19] Richland originally incorporated in 1910. In 1943 it was completely replaced by a much larger planned community, the main residential area for the newly constructed center for manufacturing plutonium. The population of the old town of Richland never exceeded 279. It was dissolved as a corporate town in 1948. The new community of Richland was incorporated in 1958.

[20] Spokane originally incorporated as Spokane Falls; name changed in 1890.

[21] The city of Tacoma, later referred to as "old" Tacoma, incorporated in 1875. New Tacoma, a separate municipality, incorporated in 1881. In 1884, "old" Tacoma and New Tacoma were consolidated as Tacoma.

[22] Tumwater originally incorporated in 1869, disincorporated in 1877, and reincorporated in 1883.

[23] Union Gap originally incorporated as Yakima City; name changed in 1905.

[24] Vader originally incorporated as Little Falls; name changed in 1913.

[25] Although incorporated before the official census date (June 1), no figure was indicated separately in the 1890 census for the town of Winlock. The population for Winlock precinct was given as 877.

[26] Yakima originally incorporated as North Yakima; name changed in 1918.

[27] Westlake annexed to Moses Lake, July 5, 1972.

[28] Adjusted census population.
